Qualifications

- Bachelor of Agricultural Science (Hons)
- Member of New Zealand Institute Primary Industry Management
- Registered Farm Management Consultant

Experience

- Farm Consultancy in Mid Canterbury from 1996

Expertise

- Farm management, pasture production, milk production, budgeting and cashflows
- Production and profit benchmarking of dairy farms and production systems across the sector
- Farm ownership structures and succession
- Governance and business management structures

Jeremys professional focus is on the dairy sector. He has developed monitoring systems with clients focused on turning grass into milk into profit. He consults in Canterbury and Tasman areas.

Jeremy and wife Rachel have developed and have ownership in a 400-cow family farm in Golden Bay. He is involved with an equity partnership with interests in New Zealand and United States of America.

Jeremy and Rachel reside in Ashburton with their two sons.
